### The Associated Teachers of Mathematics in Connecticut (ATOMIC) Annual Meeting...

#### Mathematics - Atomic Conference

The Associated Teachers of Mathematics in Connecticut (ATOMIC) Annual Meeting and Conference was held on Tuesday, December 2, 2014. We are very pleased to announce that Cathy Mazzotta, MHS educator and department head, along with Megan Staples, from the University of Connecticut will present a secondary workshop entitled, "Let's Talk About It!". Mrs. Mazzotta and Dr. Staples will "model a versatile lesson format that can be used to engage students in constructing viable arguments and critiquing the reasoning of others." In addition, they will "debrief collective experience, discuss what "counts" as a viable argument, and share additional examples of tasks and lesson formats targeting this important CCSS practice on the secondary level."
